

### Proposed changes in Relay Portal

1. Every notification to be sent through **email** rather than Whatsapp inclusive of Sign up on our portal, Registering & Paying for exam, Team Creation.
2. **Pop up notifications alongwith sound** after submission of answer.
3. **Window switch** warning.
4. **Make only questions visible** for members not supposed to attempt that question.
5. **View Teams** button not showing team members.
6. Show exam in **Completed Exams** soon after the students end the exam. Though it shows **Congratulations on Completing 1 Exam** but doesn't show which exam is completed.
7. Exam link creation, to simplify students to reach exam portal at the time of exam.
8. Random "**Save Changes**" errors at admin's end.
9. Certificate's preview as well as pdf on downloading comes in 2 pages. It should come within 1 page only. Also, let the certificate be available within the student's portal so that student can download as and when he/she requires E-certificate.
